To: Charles I N Charge
President
Sample Green Zone, Inc.

Kansas City, MO 77777

We have evaluated the services provided to Sample Green Zone Plan to determine if they meet the requirements of the Employee Retirement Income Security Act of 1974, as amended ["ERISA"] Section 408(b)(2) which requires that they be *"necessary for the establishment or operation of the plan and no more than reasonable compensation is paid therefor"*.

Based on evaluations concluded on March 30, 2012 it is our opinion that, services provided do meet the three standards of being 1) necessary 2) reasonable and 3) that compensation paid for these services is reasonable.

Detailed findings from our evaluations are included in the report that accompanies this letter. You should review these findings and if you concur with them make a note of that fact in the Acknowledgement below, describe any action you take and retain this report containing your acknowledgement in your permanent records. Please contact DALBAR if you disagree with the findings in this report.

Our opinion regarding the plan and its services is based on information provided by Sample Green Zone Plan and confirmed through public sources where feasible. Any material change or discrepancy in this information could change our opinion.

Very truly yours,

DALBAR, Inc.

Introduction

This report demonstrates compliance with these regulations and presents the results of DALBAR's Fee Disclosure Evaluation & Recommendation ("Evaluation") process which is based on information provided by the responsible fiduciary as defined in ERISA ("Plan Sponsor"). The intent of the report is to document performance of duties required by ERISA §408(b)(2) fee disclosure regulations and make recommendations when appropriate.

Please see the "*Computations and Assumptions Guide*" for explanations of information reported here.

Background

Federal government regulations now require Plan Sponsors to actively monitor and evaluate the reasonableness of their employees' retirement plans based on specific guidelines. Failure to comply subjects Plan Sponsors to severe fines, taxes and penalties.

Methodology

Information used in this analysis was obtained from Sample Green Zone Plan.

The determination of reasonableness is performed by the calculation of the "Target Price" for the plan that incorporates a number of quantitative and qualitative variables (X-Factors). The calculation uses a statistical fee benchmark as its starting point and applies various X-Factor weightings based on the facts and circumstances applicable to this specific plan. There are more than fifty X-Factors that are grouped into three categories:

Success in Achieving Retirement Goals

These X-Factors lead to a secure retirement of employees and include the time until retirement, level of plan contributions, participation rates, investment quality and asset allocations. They influence the replacement income percentage at retirement.

Meeting Plan Sponsor & Participant Needs/Preferences

Plan sponsors are not required to offer a retirement plan nor are employees required to use one, if it is offered. The voluntary nature of the plan makes it necessary to be responsive to the needs and preferences of both plan sponsors and employees. This category of X-Factors consists of those that encourage plan sponsors to offer and support the retirement plan and those that encourage use by employees.

Reducing Exposure to Risks and Liabilities

These X-Factors protect plan sponsors from taking actions or failing to act in ways that cause a fiduciary breach or non-compliance.

Assumptions

The following assumptions were used in calculating the target price for this plan:

<u>Retirement Related</u>		<u>Annual Investment Returns</u>	
Annual Income Inflation	3%	Equities	7%
% of Retirement \$ in Plan	75%	Fixed Income	4%
Expected Retirement Age	65	Stable Value	3%
Retirement Withdrawal Rate	5%	Cash Equiv.	2%
		Blended Investments	5%

Test Results

Tests are conducted in five broad categories. These categories represent the information necessary to determine if service arrangements are reasonable.

Note: The numbers in parentheses (6.1) following the title of each category identifies the section of the *Computations and Assumptions Guide* where method of determination is described.

The basis for establishing each of these categories are:

- **Completeness, Accuracy and Usability**

Completeness -408(b)(2)(c)(1)(i) prohibits use of Covered Service Providers unless proper disclosures are made.

Accuracy -408(b)(2)(c)(vii) requires that errors or omissions are corrected within 30 days.

Usability -404 and 408(b)(2) require a Plan Sponsor to decide whether it has enough information to determine whether the cost of services paid for by the plan is reasonable.

- **Plan's Success**

A plan that cannot be reasonably expected to meet the overarching goal of employee retirement security is by definition unreasonable.

- **Necessity of Plan Services**

408(b)(2) requires that services used by a plan are necessary.

- **Comparability of Costs**

408(b)(2) requires that no more than reasonable compensation is paid for services.

- **Judgment of Reasonableness**

The ability to exercise this judgment is the stated goal of the regulation.

Completeness, Accuracy and Usability

Service Provider	Disclosure Received ⁽¹⁾	Required Information	Consistency	Information Accessibility

⁽¹⁾ Disclosure not yet received, required by July 1, 2012

Plan's Success

Plan Success Factor	This Plan	Normal Level
Participation Rate ⁽¹⁾	68%	87%
Deferral Rate ⁽²⁾	6%	6.8%
Replacement Income %	32%	22%

⁽¹⁾ Steps should be taken to increase participation

⁽²⁾ Steps should be taken to increase deferral rates

Necessity of Plan Services
